

# DBAA - Member Online Booking Guide

After a successful year long trial, it was proposed and accepted at the 2022 AGM that all fishing would be moved to the online booking system.

The booking system is powered by Beatbooker, a tried and tested platform which will simplify booking and significantly reduce the administrative burden of manual permit allocation. We are confident that you will find this a more convenient way of booking fishing.

We are confident that you will find this a more convenient way to book your fishing.

Members are respectfully requested to refer to the guidance material posted on the club website if they are experiencing any difficulties with the new system.

However, we will be on hand to assist with any teething problems during the first few months.

Have a great season!

Useful information tabs

Drill through the menu to select the desired beat. Summer Season is the traditional Trout Season - March 15 to Oct 06. Where permitted Grayling permits are available outwith the trout season.

Currently, members are not required to book river fishing's via the online portal, except the Stanley beats which is a lease requirement – there is no charge. This is subject to ongoing discussion and may become a requirement in the future.

In this example we will choose Butterstone in order to show you how to add an accompanied angler. The same principals apply to all fishing's.
